

Governance Coach

Primary Care Network Development

We've achieved an incredible amount this past year. Now is the time to build on those successes and learn from our experiences.

Primary Care Networks have achieved extraordinary things in the past year and more will be asked of them as the governance arrangements for the NHS and social care shift further towards integration. Primary Care Networks (PCNs) are here to stay so it is worth spending a bit of time to improve the way they work for the benefit of those working in them and the patients who use their services.

Here's what we do:

Leadership development sessions:

- Chairing successful meetings
- Presentation skills and confidence boosting
- What makes a strong team and how to build and sustain one
- Influence without authority – how to harness collaborative working
- Understanding risk taking and risk management
- Team and individual psychometric assessments and facilitated feedback.

1 to1 leadership coaching:

- Building resilience and self-care
- Limiting beliefs and positive self-talk
- What makes a leader? What kind of a leader are you?
- Prioritisation and getting things done
- Who are you really? Personal values and strengths, and making them count
- Holding important conversations.

Organisational development (reviews and workshops):

- Governance review and recommendations for improvement
- Developing a shared vision and Network plan
- Stakeholder mapping and development
- Project management and getting things done
- Conflict resolution and mediation
- Succession planning.

Governance Coach

Primary Care Network Development

With over 20 years of experience working in the NHS including leadership development with GP Clinical Directors and their teams, **Governance Coach UK** is well placed to help you take your PCN to the next level. Whether you want to unstick a stuck Network, or take a breather and reflect on what you have achieved and where you want to go next, we can help you unlock more of the potential that exists.

By combining governance expertise with leadership coaching, we bring a unique and deeply personal approach to organisational and individual development. We take time to get to know you and the system in which you are working to create a development support package to give you what you need to achieve more successes.

We have supported new and emerging PCN leaders to survive and thrive including GPs, Practice Managers, Project Managers, Chief Officers and supporting staff. Don't just take our word for it, here are some testimonials from people we have worked with.

"We achieved alignment for the first time." Comment from a workshop feedback form

"Invaluable preparation for a big presentation." Rashmi, GP and Clinical Director

"Leadership coaching gave me the confidence to lead and challenge others." Sukhdev, GP and Clinical Director

If you'd like to find out more about this programme and how we can help you achieve your goals, do get in touch.
